What we offer

2-Year Sculpture Program. Learn more about GK's 2-year course that is offering a high-quality Sculpture education on most affordable and promising terms.

We would like to share with you our vision, mission and values.

We want to facilitate your endeavors to make the most out of your fine arts career - by providing the best online education we can.

About GlobalKnowledge

GlobalKnowledge was founded in 2003. Since then, we have been a leading and pioneering training center in Asia. Due to the situation with Covid-19, we have expanded and made chosen GK courses available online.

The main reason for establishing this online training center was to open possibilities that are accessible to everyone. GK is a leading online fine arts school, offering not only the most affordable 2 year programs, but also the one with the most minimal requirements. Our goal is to provide access to a highly esteemed fine arts education to the widest range of artists from many countries.

We took many steps to make our program as cheap and efficient as possible, so it would be affordable even for people with incomes lower than average, who are interested in improving their financial situation. Having a quality fine arts education can lead to a great career advancement.

We cut all the unnecessary costs to achieve that. We don't participate in rankings and don't buy costly accreditations. Our students' results speak for themselves. We don't have a campus, and our fine arts course is 100% online.

But what is more important, we improve our students' lives, and that is our most esteemed achievement.

Our Accreditations

GK COLLEGE, COMPTIA, EC-COUNCIL, ICDL EUROPE, PEARSON VUE, KRYTERION, IBM-i2.

2-Year ONLINE SCULPTURE PROGRAM

Your success is our motivation

Distance learning at GlobalKnowledge offers our students the opportunity to develop both their personal and professional lives and progress in their career through a flexible and practice-oriented study system. We are open to all who are aspiring fine artists; from professionals and otherwise busy individuals to high school and college students who want to know more about the subject. We gladly welcome people without any prior Sculpture knowledge because we know how hard it can be to find a job without proper knowledge or experience. That is why we design our programs and courses to be as flexible and efficient as possible without sacrificing the usual GK quality. We provide incredible learning experiences for both proficient and novice fine artists.

We also believe it is indeed important to combine our expert background and focus on service in the form of excellent student support and counselling as well as professional and innovative learning materials.

Our mission

We are well aware that our world is full of great potential fine artists that can be stuck in their career due to lack of finance or knowledge. Since the regular fine arts programs are not affordable for an average person and sometimes overpriced, it might be hard for some people to achieve their desired career level.

In GK, we strongly believe that any person can and should receive knowledge about the fine arts. We provide this amazing opportunity to the broadest range of people. GK is erasing the borders between aspiring fine artists with their busy or demanding lives and affordable quality fine arts education.

We provide our prospective students a modern, relevant and valuable certifying program that would help them to advance their careers.
